PROFESSIONAL SUMMARY

Growth & Business Development professional serving as Growth Manager at Innovation for Solar System. Combines direct solar sales, field commercial activity, B2B account and agricultural partnership development with CRM and sales operations. Personally closed 18 solar installation opportunities and completed 120+ customer site surveys and visits. Also leads practical solar-sales training, translating field experience into instruction on qualification, consultative selling, pricing conversations, negotiation, objection handling and follow-up.

CORE COMMERCIAL CAPABILITIES

Business Development: B2B Prospecting, Account Development, Partnerships, Channel Development

Sales: Consultative Selling, Qualification, Objection Handling, Negotiation, Follow-Up, Closing

Sales Operations: CRM, Pipeline Management, Next-Action Tracking, Commercial Workflows

Sales Enablement: Sales Training, Coaching, Sales Process, Candidate Assessment

Solar Commercial: Solar Sales, Site Surveys, Agricultural Solar, Pumping / Irrigation Context

PROFESSIONAL EXPERIENCE

Growth Manager

2025-Present

Innovation for Solar System

- Personally closed **18 solar installation opportunities** as Growth Manager.
- Completed **120+ customer site surveys and visits** through direct solar-sales and qualification activity.
- Initiated and developed relationships with two agricultural associations; the Senour channel has resulted in **7 solar stations totaling 320 kW** to date.
- Developed B2B accounts, mapped 47 local and regional market entries, and prioritized 20 accounts for commercial outreach.
- Built and personally maintained a live CRM, updated daily to track opportunities, stages, follow-up dates and next actions.
- **Sales enablement:** Designed and delivered practical solar-sales training, assessed participants and supported internal talent selection; two trainees were hired into Innovation immediately after completing the program.
- **Partnership development:** Originated the Higher Technological Institute of Beni Suef relationship through to a signed cooperation protocol and supported field execution; the first completed activity involved 10 students.
- Designed a 90-day sales operating framework and a three-tier annual maintenance offering.

Kahla Optical

2021-2025

Sales, Inventory Coordination & Branch Responsibility

- Sold optical products in a target-driven retail environment through customer-needs discovery, product recommendation, objection handling, follow-up and closing.
- Coordinated contact-lens stock availability and replenishment to support daily sales and customer demand.
- Progressed to branch responsibility across customer service, sales coordination, inventory availability and day-to-day issue resolution.

SALES ENABLEMENT & TRAINING

Solar Sales Instructor / Training Lead

Innovation for Solar System | Supporting responsibility within the Growth Manager role

Designed and delivered practical solar-sales training covering qualification, consultative selling, pricing conversations, objection handling, negotiation and follow-up. Assessed participants and supported talent selection, with two trainees hired into Innovation immediately after completing the program.

INSTITUTIONAL PARTNERSHIP DEVELOPMENT

Relationship Origination & Partnership Development

Innovation for Solar System

Initiated and developed the relationship with the Higher Technological Institute of Beni Suef through to a formally signed cooperation protocol, then supported the transition into field execution, beginning with a completed field activity involving 10 students observing live solar-structure fabrication and assembly.

SELECTED COMMERCIAL SYSTEMS

Solar PV Engineering, Costing & Quotation System

Built a 40-sheet workbook connecting customer inputs, solar engineering logic, bill of quantities, costing, pricing, quotation and financial analysis.

B2B Market Intelligence & CRM

Mapped 47 market entries, prioritized 20 accounts and personally updated a live CRM each day for stages, follow-up dates and next actions.

INNOVATION CARE

Designed a three-tier annual maintenance offering with service levels, reporting and a renewal journey.
